PROFESSIONAL SUMMARY

Data-focused Computer Science undergraduate (Expected Graduation: June 2027) with hands-on experience in data cleaning, analysis, and visualization using Python, SQL, Excel, and Power BI. Proficient in Google Workspace (Gmail, Docs, Sheets) for daily collaboration and reporting. Combines analytical rigor with full-stack development and automation skills to turn raw data into actionable business insights. Strong problem-solving mindset, quick learner, and comfortable working independently or within cross-functional teams.

EDUCATION

B.Tech in Computer Science Engineering

Guru Nanak Institutions Technical Campus, Hyderabad, India | CGPA: 8.0/10

Sep 2023 – Jun 2027

Expected Graduation: June 2027

TECHNICAL SKILLS

Data Analysis & BI: SQL (basic/learning), Python (Pandas, NumPy), Excel (advanced), Power BI, Data Cleaning, Reporting & Visualization

Google Workspace: Gmail, Docs, Sheets, Drive, Slides (regular daily use)

Programming Languages: Python, SQL, Java, C (Data Structures)

Web Development: React.js, Node.js, Express.js, REST APIs, MVC Architecture, HTML, CSS

Databases: MySQL, MongoDB

Tools & Platforms: Git, Docker, Vercel, Render

EXPERIENCE

Data Analyst Intern — Unified Mentor

Apr 2025 – Jul 2025

- Cleaned and analyzed large datasets using Excel, Python (Pandas, NumPy), and SQL to extract actionable business insights for stakeholder reporting.
- Built interactive Power BI dashboards to visualize key metrics, enabling faster, data-driven decision-making for the team.
- Identified data quality issues and anomalies during preprocessing, improving reliability of downstream analysis.

AI Generalist & Automation Intern — Ralla Water Purifiers

May 2026 – Present

- Design and deploy AI-powered automation workflows using Python and LLM-based pipelines to streamline business reporting processes.
- Build predictive analytics models and automate data pipelines, reducing manual reporting overhead for the operations team.
- Apply NLP and generative AI techniques to translate raw operational data into practical, actionable insights for startup-scale decision-making.

PROJECTS

Project Management Utility

MongoDB · Express.js · React.js · Node.js · REST APIs

- Developed a full-stack task management application with CRUD operations for users and tasks, backed by a MongoDB Atlas database storing 50+ live records.
- Built a secure MVC backend with Node.js & Express.js; integrated Axios for real-time frontend-backend data communication.
- Deployed frontend on Vercel and backend on Render, maintaining 90% uptime in production.

CERTIFICATIONS & ACHIEVEMENTS

- Data Analyst Internship Certificate — Unified Mentor
- Certificate of Excellence, Best Student — Cyber Security Workshop (Supraja Technologies / MSME, Govt. of India)
- Data Analytics Mastery with Excel & Power BI — BITS Pilani Hyderabad
- Getting Started with Fabric Data Agents Workshop — Microsoft Office Hyderabad
- Hack With Hyderabad Hackathon — Microsoft Office Hyderabad
