Professional Summary

Computer Science Engineering student with hands-on experience in Data Analytics, Machine Learning, and Artificial Intelligence gained through internships, certifications, and academic projects. Proficient in Python, SQL, Tableau, and MySQL, with a strong interest in building AI-driven solutions and extracting actionable insights from data. Seeking opportunities in Data Analytics, AI, and Machine Learning.

Education

Guru Nanak Institutions Technical Campus

B.Tech – Computer Science and Engineering; CGPA: 9.26/10

Expected Graduation: 2027

Sri Chaitanya Junior Kalasala

Intermediate (MPC); 98.5%

Janapriya High School

Secondary Education; GPA: 10.0/10

Experience

Data Analyst Intern

Dec 2025 – Mar 2026

Unified Mentor Pvt. Ltd.

- Cleaned, pre-processed, and analyzed real-world datasets using Python and Excel to extract meaningful insights.
- Designed interactive Tableau dashboards to visualize key business metrics and inform stakeholder decisions.
- Performed exploratory data analysis (EDA) to identify trends, patterns, and business opportunities, and developed reports to communicate insights to stakeholders.

Artificial Intelligence Virtual Intern – Infosys Springboard 7.0

Jul 2026 – Present

Infosys

- Building practical skills in Artificial Intelligence and Machine Learning through an 8-week virtual internship, applying AI-driven problem-solving to real-world use cases.

Projects

Flight Delay Prediction System | Python, Flask, Scikit-learn, Random Forest

- Built a Random Forest machine learning model on historical aviation data to predict flight delays.
- Deployed the model through a Flask web application for real-time delay prediction.

TCS Stock Data Analysis & Uber Trip Analysis | Python, Pandas

- Analyzed historical TCS stock data using Pandas, applying exploratory data analysis and visualization to uncover market trends and patterns.
- Performed exploratory data analysis on Uber trip data to identify travel patterns and peak demand.

Pizza Sales Dashboard & Supply Chain Management Dashboard | Tableau

- Designed an interactive Tableau dashboard to analyze pizza sales performance, revenue trends, and key business KPIs.
- Built a supply chain dashboard visualizing inventory metrics and operational performance to surface actionable insights.

Technical Skills

Programming Languages: Python, SQL

AI & Machine Learning: Machine Learning, Generative AI, Prompt Engineering, Model Evaluation, Feature Engineering

Data Analytics: Pandas, NumPy, Tableau, Excel, Data Cleaning, EDA, Data Visualization

Web Technologies: HTML, CSS, JavaScript

Database: MySQL

Tools: Jupyter Notebook, VS Code

Soft Skills: Problem Solving, Critical Thinking, Leadership, Teamwork, Communication

Certifications

Google Data Analytics Professional Certificate – Coursera

NPTEL Database Management System (Elite) – IIT Kharagpur

NPTEL Programming, Data Structures and Algorithms using Python – IIT Madras

One Million Prompters – Prompt Engineering for AI

Achievements

Awarded 1st Topper Certificate by the CSE Department (2025).

Presented a Security and Surveillance project at the IEEE Hack-Arena National Level Hackathon.

Participated in the Inspire India Defence & Space Convention featuring experts from ISRO, DRDO, NRSC, Skyroot, and IIT Hyderabad.
